Remiss av Energimyndighetens rapport Kontrollstation för elcertifikatssystemet 2019 (Dnr M2018/02927/Ee)

Dear Ladies and Gentlemen at Miljö- och Energidepartementet

On 18th December 2018 «Energimyndigheten» published their report for «kontrollstation 2019» which includes a suggestion for a stop rule for the elcertifikat system. On the same day, «Regeringskansliet» opened a consultation process for the suggested stop rule requiring statements until 5th April 2019.

ewz is the public electric utility of Zurich with a Swedish subsidiary operating wind farms in Sweden and the intention for additional renewable energy investments. Therefore, the elcertifikat system is highly relevant for us. We appreciate the opportunity to take part in the consultation process and herewith submit our statement in due time, signed by ewz and its Swedish subsidiary ewz Atlantic Sverige AB.

Please do not hesitate to contact Mr Raphael Hanimann (+41 58 319 28 01 / raphael.hanimann@ewz.ch) for any further questions or clarification.

Yours sincerely

Cédric Aubert
Head of Energy Economics
